Copylite ILP

# Stop Losing Orders to Labeling Mix-Ups
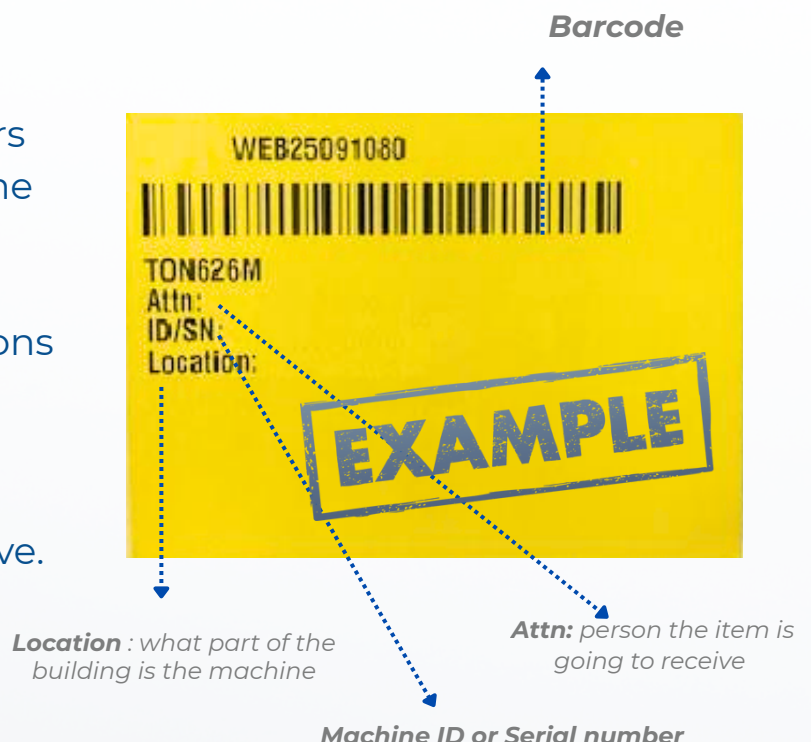

Introducing **Copylite ILP**: Your Key to Seamless Orders

Transform your order accuracy with Copylite's **Item Labeling Program** – where every detail matters and every delivery lands exactly where it should

## Your orders deserve better than guesswork.

Automated systems catch errors early, ensuring accurate, on-time deliveries.

Our ILP simplifies your operations with **detailed delivery notes,** ensuring packages aren't misplaced that your team (and your customers) will actually love.

EXAMPLE

**Location** : what part of the building is the machine

**Attn:** person the item is going to receive

**Machine ID or Serial number**

# Integration Tools That Actually Work

Endpoints customized for the customers needs. Including: Order placement, inventory, pricing, shiping tracking numbers, etc.

## Real-Time Synchronization

Updates happen instantly across all platforms. Everyone stays on the same page, literally.

## Seamless Data Connection

Your existing systems and ours become best friends. No awkward data transfers or manual workarounds needed.

## Flexible Compatibility and Automated Workflows

Works with your current setup, whatever it looks like. Your processes become smoother while you focus on bigger things.

# Why Copylite?

- **Shipping**: Your order is always shipped using the least expensive method and packaged so that you receive it undamaged.
- **Dependable Quality**: U.S.-based R&D, tested solutions, and a 1-year warranty.
- **Comprehensive Support**: 5,000+ parts, responsive customer care, and technical help when you need it.

# Take the Next Steps

Want to end labeling headaches and boost customer satisfaction? Schedule a consultation with our reps and see how Copylite's ILP can streamline your operation.
